

About Us

MAESTRO
ENTREPRENEUR CENTER

Founded in May 2016, Maestro Entrepreneur Center, a 501(C)(3) Non-Profit Incubation and Acceleration center, is creating true economic development by helping grow our existing companies in a historically underutilized area of town and improving the San Antonio Economy. We offer incubation space for up to 50 small businesses of all industries.

Our Core Program:

12-Week Entrepreneurship Cohort Program

The 12-Week Entrepreneurship Cohort Program is a 12 Week Curriculum-Based Intensive Accelerator Program. These series of classes are designed for existing small business owners who seek to accelerate their growth. Sessions are held Tuesday Nights 5:30 pm to 8 pm for 12 weeks and all sessions are taught by successful entrepreneurs in respective industries. Each week a new topic is introduced to help establish a strong foundation for every entrepreneur. Topics include: Jump Start your Business Development Plan, Diversifying Your Marketing Plan, Managing Cash Flow, Cost Pricing, Keeping Score of Your Success, Developing the Right Team, Succession Planning and Investing, Leading and Decision Making, among others topics.

For the year of 2019, Maestro accelerated 15 companies in different industries. Our cohort graduates are

companies that range from electrical work, retail, event planning, pest control and more. Participants have the opportunity to connect with other entrepreneurs, speakers, public figures, and establish new business connections. The cohort culminates with a graduation ceremony where friends and family are invited to attend. Maestro does not stop there! After Cohort Forum Sessions is a monthly program where we follow up with our companies to establish a support group where entrepreneurs can discuss challenges and celebrate successes!
